

Nico Dabatos, DPT

Nico Dabatos is a graduate of D'Youville College in New York where he received his Doctoral degree in Physical Therapy (DPT).

As a Doctor of Physical Therapy, Nico has received specific training in differential diagnosis, anatomy, primary care screening, pharmacology, radiology and imaging, manual therapy, therapeutic interventions, health care management, prevention and wellness, health promotion, and pathology.

During his schooling, he was a teaching assistant for gross anatomy for three years, where he helped MD, PT, OT, and chiropractic students dissect and learn about the human body. Nico was also Vice President of the Student Physical Therapy Association. He has additionally received an orthopedic certificate from his PT school, which only accepted a handful of students to participate, which required additional course work, noting his final clinical instructor was an FAAOMPT (Fellow, American Academy of Orthopedic Manual Physical Therapy).

Prior to receiving his DPT, he earned a bachelor's degree in Biomedical Science with a minor in Pharmacology and Toxicology from University at Buffalo. Here he participated in various clubs and extracurricular activities and found his love for dancing. Following his graduation, Nico chose to pursue traveling Physical Therapy in order to explore the country. He specializes in orthopedic manual therapy, and has worked in a variety of settings including out-patient orthopedics, sports medicine, spine, geriatrics, hospital, and vestibular and neurologically impaired patients.

In his free time, you can find Nico exploring new areas with his dog Ollie.

EDUCATION

B.S. in Biomedical Science, minor in Pharmacology and Toxicology. University of Buffalo, New York
D.P.T (Doctor of Physical Therapy), D'Youville College, Buffalo, New York

POST GRADUATE EDUCATION

McKENZIE INSTITUTE U.S.A.

McKenzie Mechanical Dx & Therapy: Part A Lumbar

Brian McClenahan PT, MS, OCS, Dip. MDT, FAAOMPT 7/10–8/14/2021
Chris Chase, PT, OCS, Dip. MDT, FAAOMPT

ONLINE STUDY COURSES

<i>High Intensity Interval Training (HIIT): Applications for Fitness & Rehab</i>	Chad Hensel, DPT, MHS, CSCS	9/18/2020
<i>Impaired Mobility of the Joints, Mobile Performance, Motor Control and Posture in Older Adults</i>	Suzanne J. Greenwalt, PT, DPT, CCS, GCS	9/14/2020
<i>Get Your Foot in the Door: Foot and Ankle Rehabilitation</i>	Betsy Myers, MHS, MPT, OCS, CWS, CLT	9/13/2020
<i>Components of Ethics in Healthcare</i>	Lisa Milliken, MA, CCC-SLP, FNAP, CDP	9/11/2020
<i>Blood Flow Restriction Training: Understanding the Safety, Mechanisms, and Efficacy</i>	Joel Novak, DPT, CSCS	9/10/2020
<i>An Introduction to Trigger Point Dry Needling</i>	Chad Hensel, DPT, MHS, CSCS	9/09/2020
<i>Geriatric Physical Therapy Module 1: Aging Population, Physiology, Geriatric Pharmacology</i>	Dale Avers, DPT, PhD	9/08/2020
<i>Effective Examination & Treatment of the Shoulder Complex</i>	John O'Halloran, DPT, OCS, Cert MDT, LATC, CSCS	12/15/2019
<i>Orthopedic Manual Therapy for Low Back Pain: Examination and Interventions</i>	Theresa Schmidt, DPT, MS, OCS, LMT, CEAS, CHY, DD	12/12/2019
